Impact of Action	Degree
Determines and allocates Nuclear Medicine resources to meet the performance and operational objectives of the department. Introduces new/improved testing procedures to enhance services. Minor injury may occur with improper disposal of radioactive materials. Injections may cause serious discomfort. May cause substantial delays through inadequate planning. Misjudgement in prioritizing patient tests, preventative maintenance and allocation of other resources may result in uncoordinated, inefficient delivery of service.	<u>3.5</u>
Leadership and/or Supervision Provides regular direction to department staff. Assists with budget planning and other administrative/management tasks.	<u>4.0</u>
Physical Demands Occasional physical effort positioning patients and operating computer with periods of accurate coordination of fine movements.	<u>1.5</u>
Sensory Demands Frequent sensory effort preparing reports/budgets, reading, performing injections, operating computer and listening to management, physicians and Technologists with competing multiple sensory demands.	<u>3.0</u>
Environment Occasional exposure to major hazards such as blood and body fluids, radioactive material, sharps, and unpredictable weights.	<u>3.0</u>
