Impact of Action	Degree
Determines and allocates laboratory and X-ray resources to meet the performance and operational objectives of the department. Improper venipuncture with clients/patients/residents may cause serious discomfort. Delays in test results may require re-testing and delay in treatment. Misjudgment in operating/monitoring/maintaining laboratory/x-ray equipment may result in identifiable loss and/or disruption of service.	<u>3.0</u>
Leadership and/or Supervision Provides occasional guidance to co-workers. May provide functional guidance to operational leaders on department policies and practices.	<u>2.5</u>
Physical Demands Regular effort procuring specimens, transporting, positioning clients/patients/residents and moving equipment, while walking and standing with periods of coordination of fine or coarse movements. Works in awkward positions with light to heavy weight demands.	<u>2.5</u>
Sensory Demands Regular sensory demands such as performing venipuncture, radiographic examinations and microscope work with periods of competing multiple sensory demands.	<u>2.5</u>
Environment Regular exposure to major hazards such as blood and body fluids, radiation, and sharps.	<u>4.0</u>
